DIGITAL CITIZENSHIP

INTERNET TRAFFIC LIGHT

""Green means **GO**... to sites we **trust** "

"Yellow means **SLOW**... being safe is a **must**"

"Red means **STOP**... Ask if it **okay**"

Students Learning

Students will listen and sing along to a short video in order to learn about responsibility and safety while using the technology and exploring the world at their fingertips! This video will remind them of safety tips while using the internet and exploring websites!

Questions to ask @ home!

1. What is the difference between private and public information? What information should stay private and what information can you make public?

2. What should you do if you think a website is unsafe?

3. Why is digital citizenship so important and how is it useful?
